APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued with the provision that at all times sufficient water must be allowed to pass the point of diversion to satisfy the existing rights between the point of diversion and the point of return to the stream. The existing rights for power must be recognized.

The applicant is required to furnish a map made in accordance with the rules and regulations of the office of the State Engineer, now in force.

This permit is to be used in conjunction with permits No. 2505-2506 and 2507.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed Ten (10) cubic feet per second.

Actual construction work shall begin on or before May 30th, 1913.

Proof of commencement of work shall be filed before June 30th, 1913.

Work must be prosecuted with reasonable diligence and be completed on or before May 30th, 1915.

Application of water to beneficial use shall be made on or before October 30th, 1917.

Proof of the application of water to beneficial use must be filed with the State Engineer on or before November 30th, 1917.

WITNESS MY HAND AND SEAL this 30th day of October, 1912.
